

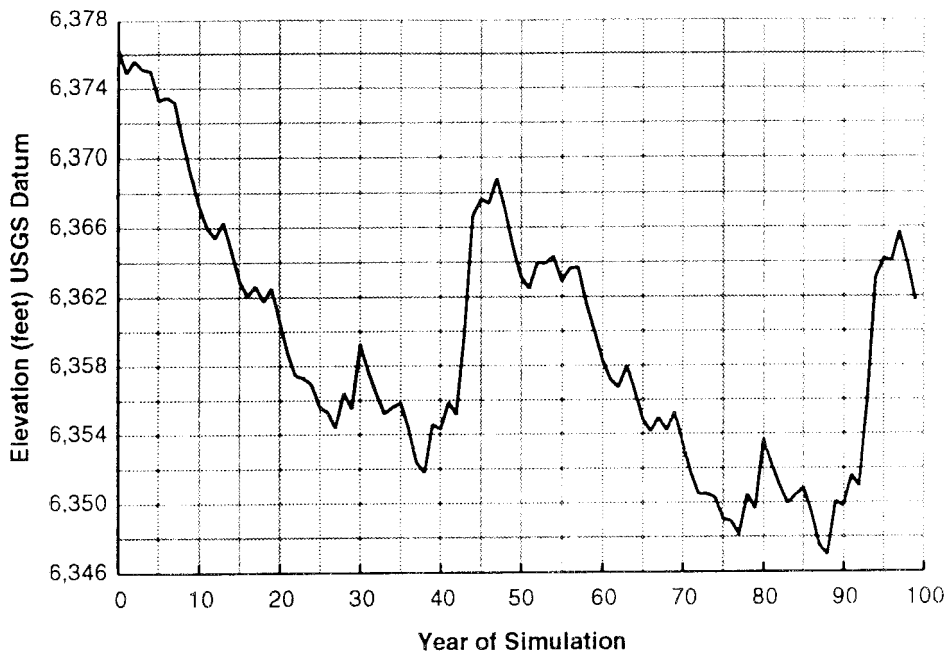

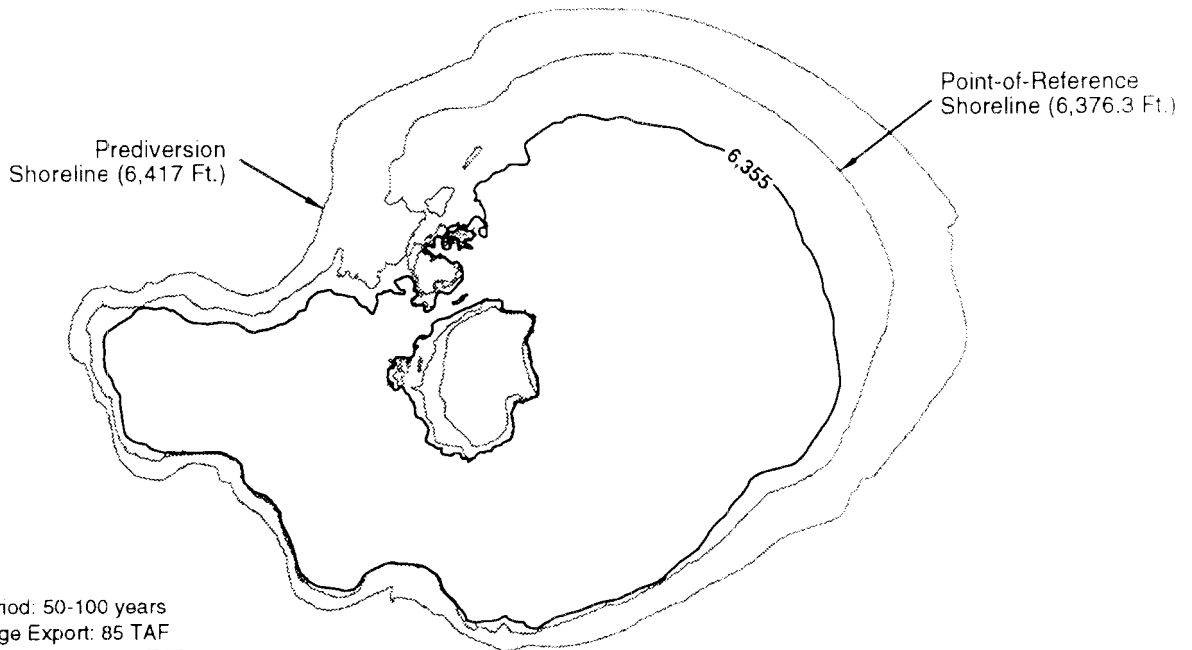

Figure 2-3.  
 Simulated Lake Surface Elevation - No-Restriction Alternative

Note. Simulation is based on 1940-1989 historical hydrology, beginning at the point-of-reference lake surface elevation.

Figure 2-4.  
 Lake Configuration at Equilibrium Lake Level -  
 No-Restriction Alternative

Transition Period: 50-100 years  
 Annual Average Export: 85 TAF  
 Annual Average Release: 32 TAF
