

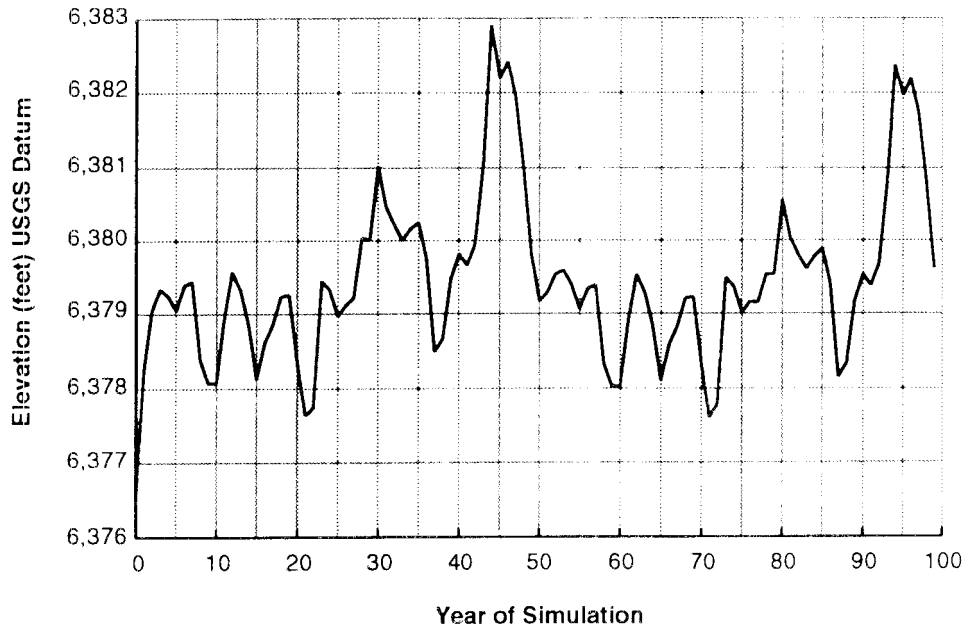

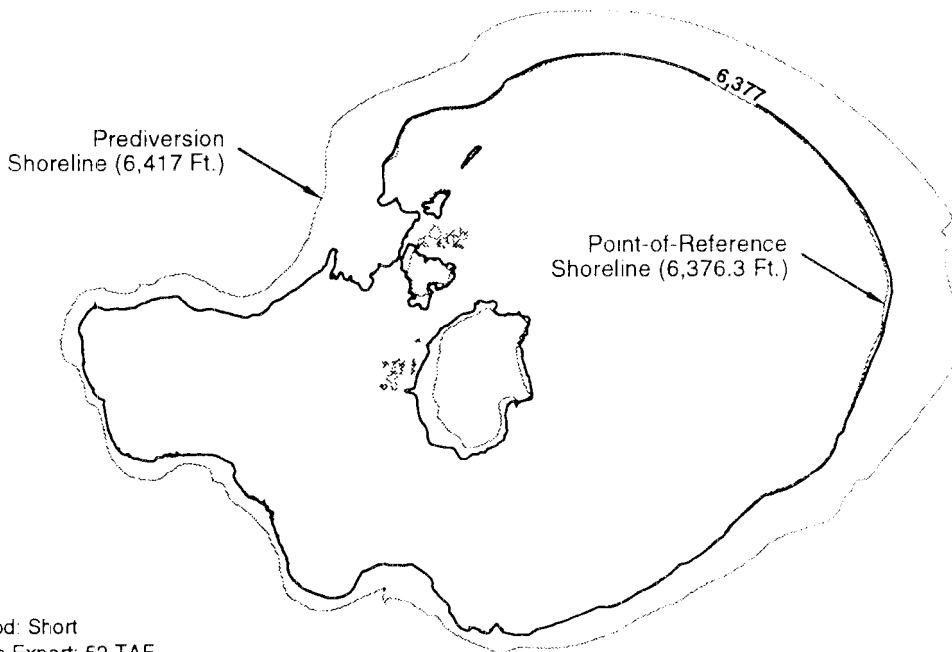

Figure 2-7.
 Simulated Lake Surface Elevation - 6,377-Ft Alternative

Note: Simulation is based on 1940-1989 historical hydrology, beginning at the point-of-reference lake surface elevation.

Figure 2-8.
 Lake Configuration at the Protected Lake Level -
 6,377-Ft Alternative

Transition Period: Short
 Annual Average Export: 52 TAF
 Annual Average Release: 74 TAF
