

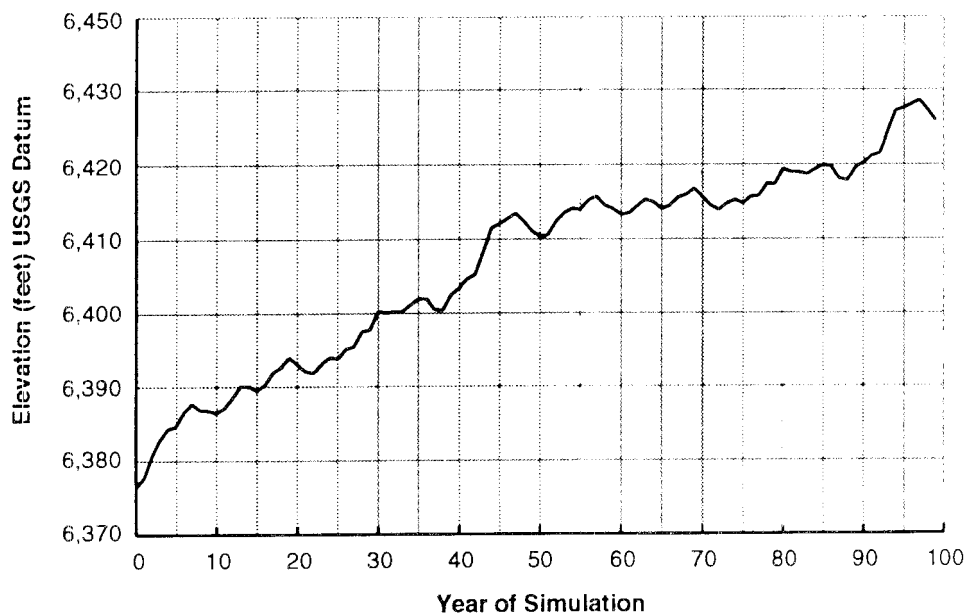

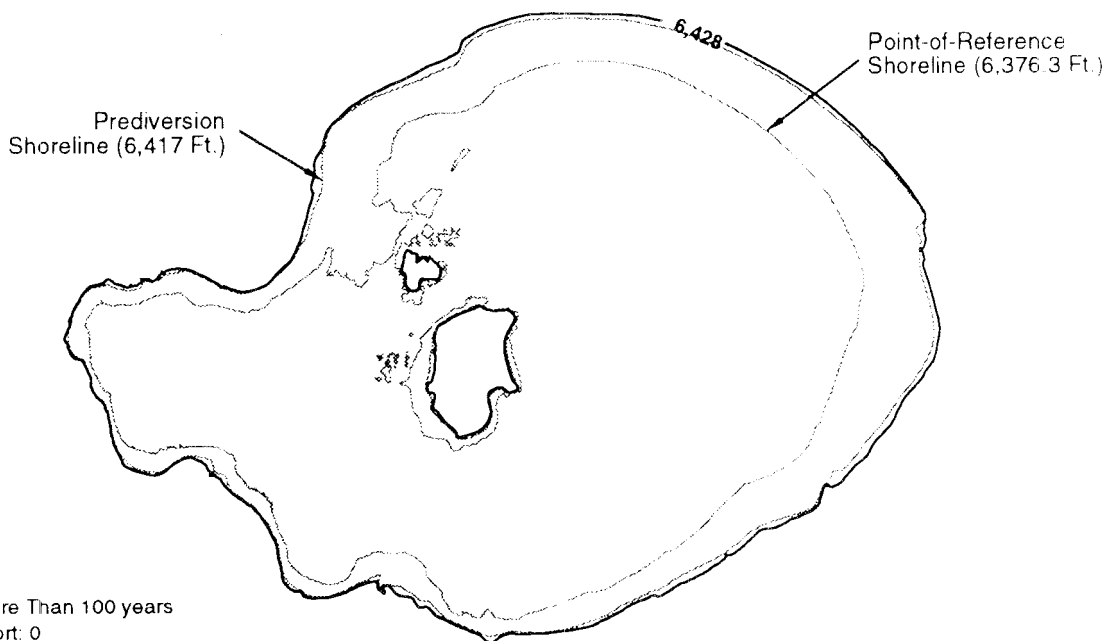

Figure 2-15.  
 Simulated Lake Surface Elevation - No-Diversion Alternative

Note: Simulation is based on 1940-1989 historical hydrology, beginning at the point-of-reference lake surface elevation.

Figure 2-16.  
 Lake Configuration at the Equilibrium Lake Level -  
 No-Diversion Alternative

Transition Period: More Than 100 years  
 Annual Average Export: 0  
 Annual Average Release: 124 TAF
